WANDERLUSTERS VIEW FIRST WINTER SIGNS

Walkers See Thin Ice and Winty
Woods on Their Hike Near
Cabin John Bridge.

A party of 150 Wanderlusts yesterday hiked five and one-half miles from Cabin John Bridge. They were led by James P. Green and Gordon True.

The pedestrians struck through a field near Cabin John and walked to Conduit road, which they followed for a mile and a half to Rock Run, the first stream above Cabin John Run. They followed Rock Run for about two miles, the course leading them in a circle back to a few hundred yards above the point where they left Conduit road.

The course was a new one for the hikers, a trail having been blazed some days ago for their convenience. Many were disappointed because they were unable to take photographs, because of the cloudy weather. The official report will tell of winter woods, steep climbs along the stream, thin ice on the water and other details of the picturesque walk.

The Wanderlusts will give an oyster roast next Wednesday night. They will gather in front of the Union Station at 7:30 o'clock, will ride to some as yet unnamed point by street car and will walk two miles through the country, where oysters and camp fires will be in readiness. The road was planned as a special December feature of the hikers.

The walk next Sunday will be from the Anacostia end of the Navy Yard Bridge, and will be under the leadership of W. T. Hall and John Roason.

A parachute for aviators that has been invented in England is compact enough to be worn in a helmet, ready for instant use.

BAD LUCK IN ANCIENT SKULL

So Pittsburgh Woman Will Give
Queen's Mummy to Museum.

Pittsburgh, Pa., Dec. 12.—Because her son and husband have died since the acquisition of the mummy skull of an Egyptian queen nearly 2,500 years old, Mrs. Jere Bauman, of Newcastle has donated the head to the Carnegie Museum.

Mrs. Bauman says she believes the mummy worked a spell upon the members of her family and hopes to break this by giving the head away. Her son died four years ago and her husband died last month.

The skull is that of Queen Hatshepsut, or Nefertiti, of the line of Thothmes. It was unearthed by Mr. Bauman in September, 1908.

BIRTHS REPORTED.

WHITE.
Charles S. and Eleanor M. White, boy, George and Ethel Wilmoth, boy, John V. and Josephine M. Schmidt, boy, Louis J. and Estelle Baumgartner, girl, John E. and Eleanor M. Hagedorn, boy, John E. and Maudie M. Leroy, boy, Archibald J. and Nellie L. Kagle, girl, Joseph J. and Mary L. Kelly, boy, Harry A. and Lydia M. Kelly, boy, James H. and Josephine E. Bailey, boy, Samuel H. and Julia M. Dunn, Jr., girl.

COLORED.
Samuel and Sadie Foster, boy, Samuel and Louise Fland, boy, William and Gertrude Eileen, boy, Alvin and Antoinette Butler, girl, William and Paula Allen, boy.

Maj. Pullman at Safety Meeting.
Maj. Pullman, superintendent of police, left for New York last night, where he will attend a special session of the Safety First Association of America. Traffic regulations for the safeguarding of the public will be taken up by the association. Innovations in police regulations of the District may result from the trip of Maj. Pullman.

L. W. Payne, a policeman, is in Purcellville, Va., visiting friends.

SEEK HELP FOR TOKYO HOSPITAL

President, His Fiancee, and
Other Notables Will At-
tend Meeting Today.

JAPANESE EMPEROR AIDS

Institution that Serves People of All
Creeds Is Demonstration of Prac-
tical Christianity.

President Wilson, his fiancée, Mrs. Norman Galt, the members of the Cabinet and the woman of their families, the Japanese Ambassador and Countess Chinda, and other notables will gather tomorrow at 5 o'clock, to attend a meeting in the interest of St. Luke's International Hospital at Tokyo, Japan.

Addresses will be delivered by a number of prominent persons among them Mr. and Mrs. Charles R. Pancoast, of Philadelphia, who have returned from Japan with a remarkable lantern slide picture, which will be shown, and Dr. Rudolf Teusler, who has been actively promoting the building of the hospital and conducting the units so far established.

Emperor Helps Hospital.

Bishop Harding, head of the Episcopal church in this country, announced last night that all arrangements for the meeting have been completed, and that those who desire to obtain cards of admission to the hall, which there is still a plentiful supply, may do so by applying to Miss Kibbey, of 205 Massachusetts avenue, before 4:30 this afternoon.

The hospital is to be an international Christian hospital under American auspices. The sum of \$200,000, has been given and pledged toward the project in the United States and Japan. Its total cost will be \$500,000. The project stands for the first social service work of the kind in Tokyo, and the prominent persons in the United States and Japan, who are lending their aid toward the movement believe that the building of the hospital will cement by international co-operation, a living, working organization, the friendship between Japan and America, which is so much needed.

The Emperor of Japan has given \$25,000 toward the project, and Count Okuma and other prominent Japanese have given \$50,000. Americans have given \$75,000 more, and there are additional pledges from both nations of \$77,500.

Will Serve All Creeds.

Notwithstanding the fact that the Episcopal church is to be the movement, St. Luke's is to serve alike rich and poor, Japanese and foreigner, irrespective of creed. The hospital already has a training school for Japanese nurses, and is establishing research laboratories for Oriental diseases and tropical medicine. The free beds and dispensary at present minister to more than 200 patients daily. The fundamental reason for establishing the hospital was to demonstrate practical Christianity.

The movement in the United States to aid the project is national in its scope, and is assisted by what is called an American Council, of which Lloyd C. Griscom, former Minister to Japan, is the president. A Woman's National Council is also assisting in the work, among its members being Mrs. Alexander Mackay-Smith, of Washington, and Mrs. Griffith L. Johnson, of Washington.

PASTORS SPEAK ON HEALTH RULES

Sixty Churches Are Warned
of Dangers Existing from
Tuberculosis.

PREVENTING ITS GROWTH

Secretary Ufford Says Idea of Asso-
ciation Is to Make Known Peril
Existing from Disease.

With more than sixty Washington churches co-operating, national health week came to a close yesterday. Walter Ufford, secretary of the Association for the Prevention of Tuberculosis, declared last night that the chief benefit derived was that thousands of people were warned to consult a doctor every year regarding their health and by a diagnosis of the disease in its early stages prevent its growth.

"About 500 letters were sent to clergymen of Washington asking for their co-operation," said Mr. Ufford last night, "and sixty promised to make a reference to tuberculosis at the services yesterday. National health day is generally held in October, the anniversary of the day the national association. This year in Washington, instead of having a health day, we had a week devoted to the question. The results were very gratifying."

The week opened last Monday. On Wednesday we had what we called "Medical Examination Day," to impress upon the people the necessity of being examined by a doctor at least once a year. Letters were sent to managers of bakeries, laundries and shops, asking their co-operation in urging their employees to be examined. The replies were very encouraging and a larger number of persons presented themselves at the dispensary of the association at 923 H street northwest than we had expected. All the examinations are free, and as it only takes a short while to be examined, the employees were put to little trouble.

"Friday we had our Children's Health Crusade Day, in the public schools. Supt. Thurston notified the teachers of the movement and suggested their co-operation. Accordingly, a special day was placed upon the twelve health rules urged by the association and in many of the schools the children wrote compositions on the subject. Since 1912, we have distributed more than 10,000 printed cards with these health rules among the children of the public schools and this year 300 large cards were sent out, one of which was placed in every classroom above the third grade. In addition, Dr. George M. Kober, dean of the Georgetown Medical School, addressed the pupils of Western High School on the subject of tuberculosis. The whole movement is one of prevention. If the dangers of tuberculosis are considered in time, it can generally be cured."

WEATHER CONDITIONS.

For the District of Columbia and Maryland: Rain or snow Monday, Tuesday partly cloudy; fresh westerly, shifting to westerly winds. For Virginia—Local rains Monday, Tuesday fair; fresh shifting westerly.

Unsettled weather prevails over much of the country east of the Mississippi River under the influence of disturbances that are moving from the Great Lakes and off the North Carolina coast, and during the last twenty-four hours there were showers in the region of the Great Lakes, the Ohio and Upper Mississippi valleys, and rains in the Ohio Valley, Virginia, and Tennessee. Rain is also reported from the Pacific States, except Southern California, attending the eastward movement of a disturbance that is now off the Washington coast.

Temperatures have not changed materially in any section, the reason being that the weather is in all parts of the country, with the lowest readings, slightly above zero, over North Dakota and below zero elsewhere.

The indications are that there will be local snow Monday and Tuesday in the region of the Great Lakes and the Ohio Valley. Northern New York and Northern New England. In the Middle Atlantic States snow and rain Monday will be followed by Tuesday.

In the South Atlantic and Gulf States, Tennessee and the Lower Ohio Valley fair weather will prevail Monday and Tuesday. No important temperature changes are indicated for the eastern half of the country during the next 24 hours.
